

Choose Happy Frame

Ingredients:

- WOW! Clear Matt Dull Embossing Powder
- WOW! White Pearl Embossing Powder
- WOW! Ultra Clear Ink pad
- WOW! Heat Tool
- Background stencil
- Chipboard letters
- Chipboard for backing
- Frame
- Cut N Dry Foam
- Chalk paint
- Adhesive

Instructions:

Using the Cut N Dry Foam, apply chalk paint all over the frame, one coat will give a mottled look, which is the look I went for, if you want a more solid look then apply more coats. Allow to dry.

Using more Cut N Dry Foam apply WOW! Ultra Clear Ink to the frame and sprinkle with WOW! Clear Matt Dull Embossing Powder, heat set. If you've never used Clear Matt Dull, it will certainly have you 'WOW'ing' as you heat it, it goes glossy and when it goes cold it goes completely matt, perfect when you want to give a protection, as in this case, and don't want a shine. !! Repeat the above for the background chipboard.

Choose Happy Frame... Continued

Stencil the background chipboard with **WOW!** Ultra Clear Ink and sprinkle with **WOW!** White Pearl Embossing Powder, heat set.

Ink up the chipboard letters and sprinkle with **WOW!** White Pearl Embossing Powder, heat set.

Depending on the thickness of your letters, either slide in the chipboard background, adding a little adhesive to hold it in place, then adhere the letters or adhere them and then slide in.

Happy Embossing !!!
