- Frame (optional) also makes a great little note book cover

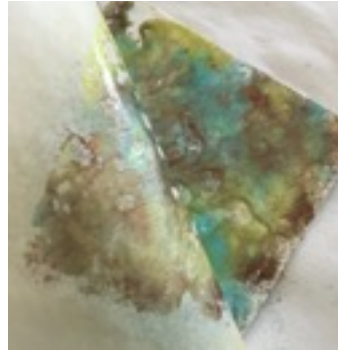

Instructions:

Sprinkle some WOW! Misty Sky Embossing Powder on the chipboard then continue to add both WOW! Avocado Embossing Powder and WOW! Perissia Embossing Powder.

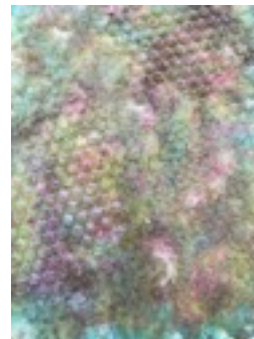

Textured Background ... Continued

Once all covered (it doesn't matter if you leave a bit of white showing) place freezer paper on top and heat with the heat tool, this will melt it without it blowing everywhere. I then decided I wanted to add some **WOW!** Yum Yum Bubblegum Embossing Powder to it, so inked it up with the **WOW!** Ink Pad and sprinkled it on then covered it all with **WOW!** Clear UH Embossing Powder and heat set.

Repeat with the Ultra High and this time as soon as it's melted stamp in the mini hexagons from **WOW!** Hearts and Twine Clear Stamp set.

Put 2 teaspoons of **WOW!** Melt-It and an 1/8th of a teaspoon of **WOW!** Perissa Embossing Powder in the foil case and stir together, heat from underneath, once molten, pour directly onto the non-stick heat mat creating a circle.

Sprinkle some **WOW!** Jade Sparkles Premium Glitter into the silicone mould and re-heat the rest of the Perissa from the foil case and pour into the mould. Adhere the poured circle on the chipboard and the moulded embellishment on top of the circle, adhere the chipboard inside the frame.
