Put 1 teaspoon of **WOW!** Melt-It and an 1/8th of a teaspoon of **WOW!** Avocado Embossing Powder in the foil case and stir together, heat from underneath, once molten, pour directly onto the non-stick heat mat creating a circle.

Remove the top from the die cut heart, revealing the double sided adhesive. Sprinkle some **WOW!** Celebration Sparkles Premium Glitter on to it, shake off excess.

Using a Zig Glue Pen run round the edge of the tree and sprinkle **WOW!** Celebration Sparkles Premium Glitter on, shake off excess. Rub wooden dowel in **WOW!** Clear Ink Pad and cover with **WOW!** Avocado Embossing Powder, heat set. Adhere everything together.

If you'd rather it not be a tree, just turn it on it's side and you have a celebration banner. You can also give it a smoother waxier look, by touching the heat tool to the freezer paper, as in the banner.
